

Our company philosophy has always been centered in sustainable processes and dedication to environmental health. Today, these same values reside in all our business practices and pervade the organization. We recycle over two million pounds of post consumer bottle glass each year in our manufacturing.

Along with many other initiatives that continually improve our sustainability efforts, we implemented a co-processing partnership to almost completely eliminate any of our manufacturing waste from going to a landfill. As is evident in our product design and company values, we are committed to ongoing process advancements and environmental stewardship.

*Pre-consumer materials are generated during our manufacturing process and may consist of scrap and trimmings that were never used in the consumer market.

**Post-consumer material is an end product that has completed its life cycle as a consumer item and would otherwise have been disposed of as a solid waste. Oceanside Glasstile's post-consumer material is recycled bottle glass (cullet) from curbside recycling programs.

CURBSIDE TO OCEANSIDE

Our products are beginning a new life after serving as things like juice containers, pickle jars and Corona bottles. The glass has been sorted, cleaned and crushed to precise specifications. The recycled glass is combined with raw materials that have been filtered through extensive quality assurance processes. All in all, we are working responsibly to bring you an “up-cycled” product with an absolute commitment to sustainable practices.

LEED CERTIFICATION

Oceanside Glasstile uses more than two million pounds of bottle glass from curbside recycling programs each year. Increased use of recycled materials is a criterion in our ongoing manufacturing improvements. We are able to collaborate easily with our glass art center (manufacturing plant), which is just 10 minutes south of the U.S. border. These two elements lend to LEED Points: MRC 4, 4.1 and 4.2 (pertaining to recycled content) and MRC 5, 5.1 and 5.2 (pertaining to location).

DEDICATED SERVICES

As the manufacturer of such distinctive lines of tile, we stand behind our products with unwavering confidence. Being an innovation leader and expert in glass tile manufacturing we understand the importance of providing the most comprehensive service in order to support your architectural project. We offer the most dedicated and knowledgeable technical services support in the industry. Our team has developed detailed installation instructions that are backed up with personal guidance for both contractors and homeowners at any stage of the construction process. From the original inspiration to the final installation, Oceanside Glasstile delivers seamless service for a gratifying tile experience as you fulfill your own design dreams.

Feel free to contact our Technical Support team at 877-648-8222 or e-mail at techsupport@glasstile.com.

2 DECADES OF EXPERIENCE

Dating back to the 1960's our artisan heritage is wed with two decades of pioneering the green market; the result being authentic design coupled with sustainable manufacturing. Oceanside Glasstile begins with molten glass that is skillfully hand-cast, bringing out the personality and intrinsic wonders of this jewel-like substance. Once the glass is formed it continues to be finessed as hands influence its final destiny. At each stage our proprietary equipment imparts a special finish and makes sure that every product is meeting the highest quality standards; it's a magical combination of artistry and technology. We believe beauty and durability go hand-in-hand with the utmost product quality that protects your lasting investment.
