

## LEED LETTER

November 01, 2009

Re: Recycled Content

Dear Specifier:

Durat solid surface contributes to the following LEED credits

- **MR Credits 4.1 & 4.2 - Recycled content**
  - o This credit requires that a minimum of 10% (MR4.1) of the materials used on a project are derived from recycled content. An additional credit is achieved if 20% (MR4.2) of the materials used on a project are derived from recycled content.

This letter is to confirm that Durat solid surface contains 28% pre-consumer recycled plastic content by volume.

The material above is manufactured in Rymättylä, Finland and Ganzhou, Jianxi Provincem China. A majority (Finland 65%) of the materials used in the manufacturing of Durat have been sourced within 300 miles of the manufacturing location

Note: Please contact manufacturer for further information regarding the recycled material.

We thank you for your business and look forward to supporting your construction needs.

Sincerely,

Heikki Karppinen
