EASY TO APPLY

LAYING INSTRUCTIONS

Spread the adhesive on the wall or on the floor. Uniform the adhesive by means of a toothed trowel of 5 mm. Apply the mosaic sheets setting them in line so as to obtain a correct vertical and horizontal meeting of the joints. Top the sheets

with a wooden or rubber trowel to ensure adequate adhesion. Fill the joints between the tiles with a slurry. Then clean the mosaic carefully with a wet sponge, and subsequently with a dry rag.

Stendere in modo uniforme uno strato di collante, preferibilmente a base di lattice di gomma con una spatola dentata di 5 mm. Far aderire il foglio di mosaico con un tampone di legno o di gomma, e con lo stesso livellare tutte le tessere. Dopo che tutto ciò si è solidificato, riempire gli spazi fra le tessere con boiacca di cemento o altro prodotto speciale per giunti. Pulire accuratamente il mosaico con una spugna umida e quindi con uno straccio asciutto.
