

Collection
VETRITE®

The image features a black background with a fine, cracked leather texture. Two thin, parallel gold lines intersect diagonally, forming a 'V' shape that frames the central text. The text 'SICIS' is written in a white, serif font with a registered trademark symbol (®) to its upper right.

SICIS®

VETRITE ExtraLastre

Nasce attraverso una intensa attività di ricerca volta alla realizzazione di nuove evoluzioni dei materiali decorativi di lusso da rivestimento, ed è per SICIS un passaggio naturale, dalla tessera di mosaico fino alla grande lastra. Il vetro, materia intrinseca al dna dell'azienda, con l'applicazione composita di tessuti e film polimerici che ne diventano il cuore, è il protagonista di queste lastre di grandi dimensioni. Il formato può arrivare a **120x280 cm** con uno spessore da **6 mm** fino a 12 mm, in caso di particolari utilizzi.

Nella Factory di SICIS e negli Atelier si mescolano saggiamente tecniche e alchimie, abilità manuali e arte ed è in questo ambiente che trova forza una precisa intuizione, creare un prodotto all'avanguardia dal punto di vista innovativo ed estetico, che supera la barriera delle dimensioni.

La Vetrite è per SICIS la capacità di pensare il rivestimento senza vincoli di alcun tipo, uno stile, un'arte decorativa, evocativa, preziosa, capace di donare emozioni, svelare trame esclusive, pattern unici, colori suadenti.

Questo prodotto, puro e tenace, è particolarmente versatile e eclettico, adatto ad esplorare utilizzi sia negli ambiti abituali di applicazione, nei rivestimenti di interni, sia in settori come l'arredamento, rivestimento di mobili, top, porte, luci, fino al design. Vuole essere una migliore e raffinata alternativa alle lastre di porcellanato.

SICIS è orgogliosa di presentare Vetrite, dedicata all'amore e alla passione per la bellezza del rivestimento di qualità, elemento distintivo, forza e carattere di ogni ambiente.

A natural evolution from mosaics to large surface coverings, SICIS inhouse R+D and creative teams through intensive research have developed a new and unique large format collection. SICIS Art Factory meticulously mixes technology and alchemy with artisanship in this collection that finds a precise intuition creating a truly avant garde and unique aesthetic

*Glass, an intrinsic material in the DNA of SICIS, is now once again revolutionized whereby SICIS iconic fabrics are sandwiched with polymer film (rendering it resistant) between large format glass slabs. These unprecedented thin glass slabs are available up to **120x280 cm** in either **6mm** or 12 mm thin, depending on the particular application. Vetrite provides the freedom to think about cladding without any kind of constraints in style. A decorative art, evocative and precious able to provide custom design solutions by revealing unique textures and patterns and subtle color palettes.*

This product is both pure and strong and particularly versatile for all design styles. Suitable for an infinite range of applications such as furniture, counters, doors and lighting, providing unprecedented design solutions.

SICIS is proud to present Vetrite, dedicated to the love and passion of providing distinctive quality and character to every application.

Spessore nominale 6 mm - Spessore reale 6.3 mm +/- 10% (secondo UNI EN 14411:2004)
Possono esserci piccole variazioni di spessore da un colore all'altro o tra lotti diversi dello stesso colore.
Su richiesta per applicazioni speciali lo spessore nominale può variare da 4 a 12 mm.

Spessore nominale da pavimento 10 mm. Dimensione massima 60x120 cm.
Tela Dark, Tela Brown, Vis One, Vis Two, Antique, Antique Ocra, Antique Green,
Antique Blu, Alma e Aluminium non sono disponibili per pavimento

Nominal thickness 6 mm – Actual thickness 6.3 mm +/- 10% (as per UNI EN 14411:2004)
 There could be small variations of thickness among the colors or among dye lots of the same color.
 For custom orders and for specific type of applications, nominal thickness can vary from 4 to 12 mm.

Nominal floor thickness 10 mm. Maximum slab dimension 23^{5/8}" x 47^{1/4}"
 Tela Dark, Tela Brown, Vis One, Vis Two, Antique, Antique Ocra, Antique Green,
 Antique Blu, Alma, Aluminium are not available for floor installations

Montaggio
Installation

DESCRIZIONE TECNICA DI VETRITE

Vetro tecnico decorativo, ottenuto mediante la combinazione di polimeri in fase liquida, lamine metalliche e fibre tessili.
Vetro composito versatile ad elevata tecnologia in grado di soddisfare i requisiti estetici, tecnici e ambientali più ambiziosi.
Spessori 6 mm - su richiesta per applicazioni speciali può variare da 4 a 12 mm.
Per uso a pavimento si consiglia lo spessore da 10 mm. con finitura SICIS GRIP.

TECHNICAL DESCRIPTION OF VETRITE

*Decorative technical glass, obtained by the combination of polymers in the liquid phase, thermoformable layers, metal foils and fiber textiles.
Versatile composite glass at high technology able to meet the most ambitious aesthetic, technical and environmental needs.
Thickness 6 mm - on request for special applications may vary from 4 to 12 mm.
For floor applications we suggest 10 mm thick material with SICIS GRIP treatment.*

VETRITE E AMBIENTE

La versatilità della tecnologia VETRITE consente, su richiesta, di fornire il prodotto anche partendo da vetri speciali pretrattati quali autopulenti, antibatterici etc...
I vetri speciali a pulizia facilitata sono caratterizzati da uno strato sottile e trasparente che ha proprietà fotocatalitiche e idrofile molto efficaci nel mantenere pulita la superficie. Lo strato fotocatalitico utilizza la doppia azione dei raggi UV della luce solare e dell'acqua per rimuovere lo sporco che si accumula sulla superficie del vetro.

VETRITE AND ENVIRONMENT

*The versatility of VETRITE technology allows, on demand, to provide the product even from special glass pretreated such as self-cleaning, antibacterial, etc...
The special easy cleaning glasses are characterized by a thin, transparent layer that has hydrophilic and photocatalytic properties very effective in keeping the surface clean.
Photocatalytic layer uses double action of UV rays of the sun and water to remove dirt that accumulates on the glass surface.*

VALUTAZIONE DELLA QUALITA

Metodi di ispezione
Vetrìte deve essere osservata in una posizione verticale, ad occhio nudo e in normali condizioni di luce diffusa (naturale o artificiale, tra 300 lx e 600 lx), da una distanza di 1 m.
La direzione di osservazione è normale, cioè perpendicolarmente, alla lastra di vetro. L'uso di una fonte di illuminazione aggiuntiva, ad esempio riflettori, non è permesso.

QUALITY EVALUATION

*Inspection methods
Vetrìte shall be observed in a vertical position, with naked eye and under normal diffused lighting conditions, (natural daylight or simulated daylight, between 300 lx and 600 lx), from a distance of 1 m. The direction of observation is normal, i.e. at right angles, to Vetrìte glass.
The use of an additional lighting source, e.g. spotlight, is not allowed.*

Requisiti dimensionali

Per le dimensioni inferiori o uguali a 2000 mm, la tolleranza standard è +/- 1 mm della dimensione nominale.
Per le dimensioni superiori a 2000 mm, la tolleranza standard è +/- 1,5 mm della dimensione nominale.
La tolleranza da applicare è determinata dalla dimensione massima della lastra.
La tolleranza dell'ortogonalità è espressa come la differenza di lunghezza tra le dimensioni diagonali della lastra.
Per lastre con entrambe le dimensioni inferiori o uguali a 2000 mm, la differenza non deve essere superiore a 3 mm.
Per lastre con uno (o entrambi) dimensioni superiori a 2000 mm, la differenza non deve superare i 4 mm.

Dimensional requirements

*For dimensions less than or equal to 2000 mm, standard tolerance is +/- 1 mm of the nominal value.
For dimensions over than 2000 mm, standard tolerance is +/- 1,5 mm of the nominal value.
The standard tolerance range to be applied shall be determined by the largest slab dimension.
The squareness tolerance shall be expressed as the difference in length between the diagonal slab dimensions.
For slabs with both dimensions less than or equal to 2000 mm the difference shall not exceed 3 mm.
For slabs with one (or both) dimensions greater than 2000 mm the difference shall not exceed 4 mm.*

FISSAGGIO DI VETRITE - RIFERIRSI AL MANUALE DI POSA

L'installazione e la pulizia di Vetrite devono essere idonei all'ambiente di destinazione.

Vetrite può essere danneggiato, questo dipenderà in larga misura dall'ambiente in cui viene utilizzato.

Devono sempre essere considerate le seguenti raccomandazioni:

- I materiali di fissaggio utilizzati non devono essere di natura aggressiva.
- Quando Vetrite viene inserito in profili, i bordi possono essere danneggiati da condensazione, agenti chimici (detergenti, ecc) che possono rimanere all'interno del profilo.
- La superficie e la massa del materiale del substrato a cui Vetrite è fissato deve essere pulito, asciutto, privo di umidità, acidi, alcali e altri materiali aggressivi.
- Le istruzioni del produttore di adesivi, devono essere sempre seguite.
- Tutti gli adesivi e prodotti utilizzati devono essere compatibili con Vetrite.
- La selezione e l'applicazione di adesivi/prodotti chimici, insieme con la scelta del substrato e preparazione per il fissaggio Vetrite, è esclusivamente a discrezione e responsabilità dell'installatore.
- La selezione del detergente per la pulizia di Vetrite, in base alla destinazione d'uso, è esclusivamente a discrezione e responsabilità dell'installatore.
- Sicis è disponibile ad assistere e suggerire gli installatori.

FIXING OF VETRITE - REFERS TO INSTALLATION MANUAL

The type of Vetrite's fixing/cleaning should be suitable for the environment.

Vetrite can be damaged - this mainly depends on the environment in which Vetrite is used.

The following recommendations should always be considered:

- *The fixing materials used should not be of an aggressive nature;*
- *When Vetrite is inserted into profiles, the edges can be damaged by condensation, chemicals agents (cleaners etc...) which may remain within the profile.*
- *The surface and body of the substrate material to which Vetrite is to be fixed should be clean, dry, free of humidity, acid, alkali and any other aggressive materials.*
- *The adhesives manufacturer's instructions should always be strictly observed;*
- *All adhesives and chemicals used should be compatible with Vetrite.*
- *The selection and application of adhesives and chemicals, along with the choice of substrate and preparation for fixing Vetrite, is solely at the discretion and risk of the fixer;*
- *The selection of vetrite cleaner is solely at the discretion and risk of the fixer*
- *Sicis stands available to assist and suggest.*

PULIZIA E MANUTENZIONE

Un'accurata e regolare operazione di pulizia non solo preserva le qualità estetiche delle superfici, ma ne mantiene anche inalterate le caratteristiche, asportando polvere e depositi aggressivi.

Le operazioni di pulizia devono essere eseguite manualmente o con idonea attrezzatura dall'alto verso il basso.

Vetrite Collection è realizzata con diversi materiali con differenti caratteristiche e resistenze.

Si raccomanda in ogni caso di fare preventivamente un test di pulizia su una porzione limitata della superficie da trattare per verificare la compatibilità del detergente.

Non spruzzare il detergente direttamente sulla superficie del materiale, ma sul panno morbido e pulito.

Non utilizzare detergenti abrasivi e aggressivi.

CLEANING AND MAINTENANCE

A thorough and regular cleaning not only guarantees the exterior finish of the surface but also preserves its quality by removing dust and aggressive deposits. Cleaning operations must be done manually or by using suitable cleaning equipment from top to bottom.

Vetrite Collection is made by several materials with different properties and resistances.

We recommend you to first try the cleaning product on a small portion of surface so to make sure that it will not be affected.

Do not spray the cleaning product directly to the surface but on a soft cleaning cloth.

Do not use abrasive or aggressive agents.

AVVISO LEGALE

Ricevendo il presente catalogo SICIS, prendi atto ed accetti i seguenti termini e condizioni:
